The Company’s immediate and ultimate holding company is Star Properties Holdings (BVI) Limited, a company incorporated in the British Virgin Islands, and its ultimate controlling party is Mr. Chan Man Fai Joe (“**Mr. Joe Chan**”), who is the chairman of the Board of Directors and an executive director of the Company. With effect from 16 December 2020, the address of its registered office of the Company was changed from Clifton House, 75 Fort Street, PO Box 1350, Grand Cayman KY1-1108, Cayman Islands to Windward 3, Regatta Office Park, PO Box 1350, Grand Cayman KY1-1108, Cayman Islands. The address of its principal place of business is 11/F, TG Place, 10 Shing Yip Street, Kwun Tong, Kowloon, Hong Kong.

The Company is an investment holding company. Subsequent to the completion of business combination under common control as further explained in note 2, the principal activities of the Company and its subsidiaries (collectively the “**Group**”) are principally engaged in property development, property investment, provision of property management and security services, construction and fitting out works, provision of finance, trading of fine wine and provision of media production services.

2. COMMON CONTROL COMBINATION DURING THE YEAR

On 21 July 2020, the Company and Metropolitan Lifestyle (BVI) Limited (the “**Vendor**”) entered into a sale and purchase agreement (the “**Acquisition Agreement**”) for the purchase of (i) the entire issued share capital of Metropolitan Group (BVI) Limited (“**Metropolitan**”) (the “**Sale Share**”); and (ii) all obligation, liabilities and debts owing or incurred by Metropolitan and its subsidiaries (collectively “**Metropolitan Group**”) to the Vendor on or at any time prior to the completion date of the acquisition (the “**Sale Loan**”) at an aggregate nominal consideration of HK\$460,000,000 (the “**Acquisition**”). The consideration is to be satisfied by cash of HK\$42,000,000 and issuance of convertible bonds by the Company with principal amount of HK\$418,000,000. The Acquisition was completed on 22 October 2020 (the “**Completion**”). Metropolitan Group is principally engaged in trading of fine wine, property investment and provision of media production services. Further details about the Acquisition were disclosed in the circular of the Company dated 14 September 2020.

As the Company and Metropolitan are ultimately controlled by Mr. Joe Chan, the Acquisition is a business combination under common control. The Acquisition is accounted for based on the principles of merger accounting in accordance with Accounting Guideline 5 Merger Accounting for Common Control Combinations (“**AG 5**”) issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”) as if the Acquisition had occurred on the date when the combining entities, i.e. the Company and Metropolitan first come under the control of Mr. Joe Chan. By applying the merger accounting, the assets and liabilities of the combining entities are combined using their existing book values from Mr. Joe Chan’s perspective.

In applying AG 5 to the Acquisition as described above, the consolidated statement of financial position of the Group as at 1 January 2019 and 31 December 2019 have been restated to include the assets and liabilities of Metropolitan Group if they were within the Group on these respective dates. The consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year ended 31 December 2019 have also been restated to include the financial performance, changes in equity and cash flows of Metropolitan Group as if they were within the Group since 1 January 2019.

The following are reconciliations of the effects arising from the accounting of common control combination in accordance with AG 5 on the Group's consolidated statement of profit or loss and other comprehensive income and consolidated statement of cash flows for the year ended 31 December 2019 and the consolidated statements of financial position as at 1 January 2019 and 31 December 2019.

3. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

(i) Adoption of new or amended HKFRSs

The HKICPA has issued a number of new or amended HKFRSs that are first effective for the current accounting period of the Group:

Amendments to HKFRS 3	Definition of a Business
Amendments to HKAS 1 and HKAS 8	Definition of Material
Amendments to HKAS 39, HKFRS 7 and HKFRS 9	Interest Rate Benchmark Reform

Except for the amendments to HKFRS 16, the Group has not applied any new or amended HKFRS that is not yet effective for the current year.

The adoption of these amendments has no material impact on the Group’s financial statements except as explained below.

Amendments to HKFRS 16 — COVID-19 Related Rent Concessions

HKFRS 16 was amended to provide a practical expedient to lessees in accounting for rent concessions arising as a result of the COVID-19 pandemic, by including an additional practical expedient in HKFRS 16 that permits entities to elect not to account for rent concessions as modifications. The practical expedient applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and only if all of the following conditions are met:

- The change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- Any reduction in lease payments affects only payments originally due on or before 30 June 2021; and
- There is no substantive change to other terms and conditions of the lease.

Rent concessions that satisfy these criteria may be accounted for in accordance with this practical expedient, which means the lessee does not need to assess whether the rent concession meets the definition of lease modification. Lessees shall apply other requirements of HKFRS 16 in accounting for rent concession.

Accounting for rent concessions as lease modifications would have resulted in the Group remeasuring the lease liability to reflect the revised consideration using a revised discount rate, with the effect of the change in lease liability recorded against the right-of-use asset. By applying the practical expedient, the Group is not required to determine a revised discount rate and the effect of the change in the lease liability is reflected in profit or loss in the period in which the event or condition that triggers the rent concession occurs.

The Group has elected to utilise the practical expedient for all rent concessions that meet the criteria. In accordance with the transitional provisions, the Group has applied the amendment retrospectively, and has not restated prior period figure. As the rent concessions have arisen during the current financial period, there is no retrospective adjustment to opening balance of retained earnings at 1 January 2020 on initial application of the amendments.

The fair value of the redemption option is determined by the difference between the fair value of equivalent convertible bonds with redemption option and without redemption option.

The initial carrying amount of the equity component is determined by deducting the fair values of the liability and redemption option components from the fair value of the convertible bonds as a whole and is included in equity as convertible bonds — equity component.

The effective interest rate of the liability component on initial recognition and the subsequent recognition of interest expense on the convertible bonds was calculated using effective interest rate of 7.87% per annum.

The Group has reviewed the possible risks and uncertainties which may affect its businesses, financial condition, operations and prospects, and considered that the major risks and uncertainties that may affect the Group included (i) economic and financial conditions which may directly affect the property market or purchasing power. After the acquisition of Metropolitan Group, its operating entities in the business of provision of serviced apartments, workshops, storage and wine cellars will also be highly affected by the economy of Hong Kong; (ii) supply and price level of land banks may have significant impact to our development project planning; (iii) the continuous increase of construction costs may increase the cost of the development project; (iv) legislative and regulatory changes may affect the completion time of our property development projects or the market sentiment like property cooling measures imposed by the government from time to time; (v) outsource of construction works to independent third parties that they may fail to provide satisfactory services adhering to our quality and safety standards as well as within the timeline required by the Group; (vi) the revenue cycle is strongly depends on the sales of properties which may lead to significant fluctuation of profitability in different periods; (vii) fluctuations of fair value gain or loss incurred on financial assets and investment properties; (viii) credit risk from provision of finance which may incur bad debts during the downturn of economy; (ix) bank borrowing and interest rate risk which may limit or otherwise materially and adversely affect our business, results of operations and financial conditions; and (x) the operational expenses may also be affected by the economic situations.

Impact of COVID-19 pandemic

The Group has implemented a series of precautionary and control measures since the outbreak of COVID-19 to ensure the business continuity. In order to protect our workplace from outbreak, the Group has provided clear and timely guidelines to all staffs; maintained a close monitoring on all staff's health status, travel history and potentially infectious contacts; provided extra sanitization products and air purifier machine to all sites. Since the business operation of Metropolitan Group may involve contact with lots of customers, the Group has ensured proper sanitization and cleaning work is done. If there is any confirmed case at the site, a complete disinfection and sanitation of the whole area should be carried out by the professional cleaning services provider before allowing any people to re-enter the location. Notification to all of the customers of the relevant site will also be made immediately. In early 2020, the negative market sentiment had slightly affected the sale of remaining inventory. Various precautionary measures had also slow down the development process in the first six months of 2020. As the situation improved in 4th quarter of 2020, the Group has launched the pre-sales of the Cloud. Going onward, the Group will continue to closely communicate with different business partners to ensure the development progress is on the track.

PROSPECT

The COVID-19 Pandemic has caused serious disruptions to our social life and economic activities. Most industries, especially hospitality and food & beverage, have been hit hard. However, the residential property market of major cities in different parts of the world including Hong Kong has remained resilient. According to data provided by OECD, 89% of the countries in the world have recorded the largest positive gains since 2000 in residential property prices up to the 3rd quarter of 2020. A very substantial amount of credit has been created and injected into the economies in different parts of the world including the US, parts of Europe and Asia, resulting in a rise in some asset prices like residential properties which are less related to economic activities.

In Hong Kong, despite high unemployment and negative GDP growth, we went ahead and launched the sale of our industrial project in Tai Kok Tsui, The Cloud, in the 4th quarter of 2020. We have successfully sold more than 50% of the units of the development and the highest price achieved reached \$11,000 per sq ft in gross. With the start of the COVID-19 vaccination, we believe the pandemic situation will start to recede and economy start to recover quickly. On top of that, the US Federal Reserve recently stated that interest rate is likely to remain low in the coming two years, and also they will allow inflation to rise above 2%. We believe low interest rate with some inflation provide a very favorable background for the property market. We are therefore optimistic that we will be able to sell all the units of The Cloud as well as our other projects' units in the future.
